

PDFs, digital docs so fine,
With pages of text and images combined.
They travel far and wide,
Their content secure and locked inside.
From contracts to books, they hold much data,
A wealth of wisdom, just a simple touch to get a.
Easily accessible, just a click,
Their versatility, a clever trick.
No matter the platform, they remain the same,
Their format universal, their fame remains in the
frame.
PDFs, the future of paper and ink,
Forever changing the way we think.
